WILLSBRO
Holsteins
PERFECTING EXCELLENCE

Open Day Schedule

Friday 22nd September – From 12pm

We invite you to the Royal Cornwall Showground for an on-stage welcome and trade stands.
ROYAL CORNWALL SHOWGROUND, WADEBRIDGE, PL27 7JE

Buses will depart to Pawton dairy, home to Willsbro Holsteins where you will have the chance to view the sale cattle and walk around the facilities.

Seminars at the Royal Cornwall Showground

- Ben Nottage, Cow Manager – Monitoring health, fertility and rumination in your herd 24/7
- Tom Taylor, Bennamann – Capturing Fugitive Methane from Manure Slurry
- Dr Robin Hawkey, Mole Valley Farmers - Nutrition and Elite Dairy Genetics
- Owain Harries, General manager, Semex Elevate – Genomic Testing
- Georgina Thomas, Trouw – early calf life nutrition

Followed by a social event in the evening with complimentary food from Big Pan Parties, Bar and Special guest speaker – **Jordan Siemers** from Siemers Holsteins and Select Sires

Please RSVP to sales@willsbro.com to help with catering numbers by 15th September

Sale Schedule

Saturday 23rd September – 10am prompt

Sale will commence offering 100 milkers, 250 youngstock and 17 embryo packages from Willsbro

Our very first on farm sale in memory of Anthony Wills, it promises to be our best offering ever with some of his 'Favourites'.

Complimentary Cornish Pasty & Ice Cream

After Sale Party - Bar & Boscastle Farm Shop 'Hog Roast'

Please RSVP to sales@willsbro.com to help with catering numbers by 20th September

Please join us for a weekend of Cornish Hospitality from the Wills family

PLEASE BRING THIS CATALOGUE TO THE SALE

OVERSEAS BUYERS

The vendor is willing to offer cattle for export to N. Ireland and the Rep. of Ireland as well as to Europe (subject to health requirements). All export and transport costs are the responsibility of the buyer. All purchasers must be paid for at the close of the sale including cattle for export.

NOTICES

Online bidding is available through MARTEYE. Please follow the instructions on the next page.

All animals sell **WITHOUT RESERVE**

Terms: All purchasers please note that accounts must be settled at the close of the sale

Anyone currently under TB restriction and awaiting a licence and would like to purchase animals in the Willsbro Sale should note that the vendor is happy to house animals until a licence is acquired but within the animal current pre-movement test window. Please inform the auctioneers prior to the sale if you would like to make use of this offer.

Dear Breeder, Holstein Enthusiast and Friend,

September 2023, 19 years since milking at Pawton Dairy and the birth of "Willsbro Holsteins". Previous to this Dad always enjoyed milking good cows and would always pick good sires for AI. He would buy the better end at sales through local markets Hallworthy & Holsworthy from Mr Mark Brommel and all the Kivells team.

Willsbro Holsteins was founded by Robert, a keen young man home from University due to foot & mouth. At the time while milking he realized his favorite cow was the daughter of daas favorite cow, a wise assessment. This fueled his interest and after a meeting with Mr Jim Westaway at our home farm at Trevelver, nr Rock it was agreed to grade up the herd. "Willsbro" came about from Robert & I being the 3rd line of Wills Brothers farming together, since then 3 more pairs of Wills Brothers have been born! In the early 2000's Dad decided that a new dairy was needed as our old facility was ageing. After a trip to California it was decided to move the herd to a green field site at Pawton Store, later to be renamed "Pawton Dairy". When Dad came home from California he was captivated and it became his obsession to build a state of the art dairy facility with "cow comfort" and well being at his every thought. Sand cubicles, flood wash and Rotary. Even if it meant less cows per square foot we were going to do it right. Now as the herd was expanding we started to purchase pedigree cows, Mr David Jones of Wiltor (then N&B) had arranged for us to go to the Witherland Top 100 sale where we would buy our first pedigree cows. The highest price we paid that day was 2310gns for Witherland Herald Zolfa. She went on to be a 89 3yr MAX scored cow and was easily our highest yielder at the time. This proved to us that the better bred cows given the right environment could easily out perform there herd mates in the same system. Over the next few years many miles were travelled to various dispersals, elite and private sales scouring the UK and Europe buying many of the best on offer. Countless great trips were had with Dad & Robert and we were lucky to share these great times together! Although Robert & I were young keen and persuasive, Dad would often take matters into his own hands and would not hold back if he new it was an individual to start a great family for us.

Roxy – Stardale Sale 2006. Dad would always ask the vendor "which is your best cow?" Mr Robert Burrows then took his biro from his pocket and tapped this white cow on the back and up she got! He then said "this is the best cow I have ever bred!" Dad didn't stop and at 8500gns she was knocked down to Willsbro, probably the best purchase we ever made. At already 5 calves there was obviously some risk but I think as you look through the Roxy lots and see them for yourselves you will agree she has done us very well. Lila Z – Mr Glyn Lucas had organised the "X-Factor" sale 2006 at Carlisle and a so called star lot was a choice Goldwyn from a certain Lylehaven Lila Z. Dad was encouraged by Glyn and on the phone without Robert or my knowledge he purchased her for 27,000gns. This was the highest price we had paid at the time but she would go on to be the #2 brood cow in the UK ever at "104 STARS", safe to say a great investment.

Amber – Ridgefield Sale 2008 and Mr Mark Nutsford a great friend & mentor of ours purchased Ridgefield Gold Atlee. I called in one day at Riverdane and saw Atlee fresh and there were twin Shottles on the ground from a split embryo and one was a Nailor. We offered Mark 20,000 plus a first choice Goldwyn from Riverdane Rose out of 3 or 4 calf's we had born on farm. He agreed and Atlee then went on to be 88 2yr and All Britain. When Riverdane Shottle Amber was genomic tested she became the #1 Shottle in Europe. The Ambers consistently breed outstanding cows and also gave us Willsbro Abbott, no fool himself but will be better known for being the sire of high type sensation Walnutlawn Sidekick.

There are many other stories of buying great cow families and individuals and we'll save some for another time or I'm going to miss the deadline for the catalogue to go to print.

But it was great in 2010 to be inside the ring and not outside. This will always give us special memories of the great event we held at the Royal Cornwall Showground where Mr Mark Lee took the 90,000gn record bid for Willsbro Emilyann, the then #1 GTPI female in Europe. I can remember leading her round the ring and it felt pretty special to get to 80,000gns when we knew we had taken our great friend Mr Bill Nadin's breed record. (The next 10,000 felt pretty good too!)

Genomics, an important tool! In 2008 Dad and I had a drink with Mr Dave Eastman & Mr Albert Cormier in Toronto where they told us about a new revelation "genomic testing". We then proceeded testing our first 40 milking females. When the results came back they had no names on the sheets and only herd book numbers, even Robert didn't know the cows by there herd book numbers. It was amazing to be able to pick who was who looking at their linear's and production. Robert and I could not believe how close they all were and straight away knew that this was no hoodoo. We now have over 3000 females tested and use this data every day to try and learn from and improve the herd going forward. It's great to look at the older cows and follow their traits genemically to see what makes them great. For any milk producer, longevity is key!

Cow families are what make breeding good cows easier and especially the elite females possible. Without starting with those purchased cow families that we were lucky enough to acquire over the years we would not be as far on as we are today. They just have that ability to outperform, outlast and do it better than the cows that don't have that family behind them. Mr Graham Creeper said everyone always asks what sire the animal is by? But like he said the first question should be what family is she from, far more important! The consistency that we now see in these families combined with top sires and genomic data is so exciting. The yields combined with confirmation is a joy. I'm afraid we are greedy, why be content with a high type cow or why be content with a high production cow? We want both!

Willsbro Sale 2023 - Our first ever on farm sale! Its something that we have put off for many years knowing how much work would go into it and maybethingking we were not quite ready. 3 weeks to go and I think we may not be ready, but we will do our best. Mark Lee is to blame! He's always felt that too many people have not seen the herd and it would be a great chance for people to know what they have the chance to buy into. Not only the cow families and individuals but in other ways such as protocols, feeding and facilities. We hope it will be a great chance for you to see our day to day running of the dairy and view the facilities for yourself.

One thing that I have been grateful for is the buying, selling and breeding of pedigree Holsteins. I'm sure that it gives a working family that extra bond and camaraderie that is sometimes needed. What fun and memories we have made with Dad over the years and a lot of our farming practices today have come from wanting to go that little bit further for the pedigree cow.

I would say to any young man, father, brother, sister or mum that why not just go out and buy that cow, heifer or embryo. To start your own journey with a cow family, as I feel its an important part of getting that extra attention to detail and can bring your family members on farm even closer together. We were lucky that our Dad let us do it and I know some sons don't have the same chance or sometimes even the dads are not let loose with the cheque book. Why not have a go and take home something special! We didn't start by buying the best or the most expensive but anything can give you a great start. I feel that it will be a day for the buyer, with so many on offer bargains will be had a plenty. A great opportunity to view and select from the various families and type of cow we will have on offer. There will be cattle on offer to suit any system.

Dad - I'm sure many of you will have known or met him. It has been a difficult time after he passed away, a shock to everyone after winning the Cream Awards and then being the Premier Herd Finalist (although not winning), 2 of his proudest moments. 2 days after Dairy Day last year he sadly passed away and we were left in shock and grief. Helped a little by knowing that he was mentally in a very good place. Proud of his farm, herd and most importantly his family.

His dream from the day he landed back from California was to build a dairy facility to be proud of and one that could see the next generations farm for many years to come. Next he wanted a herd to be proud of and one that could sell stock to help generate another income stream. Also have a product that other breeders would want to buy and be happy with, which over the last few years there have been plenty. A great memory for me was when we had the cows bagged last year for Southern region judge Mr Simon Davies, Dad also walked the cows and I think he knew we were on the way to the herd he had hoped for.

His hard work and determination to achieve these goals have got us to where we are today. I hope if you are able to visit us on the 22nd/23rd September you will be able to appreciate this for yourselves.

I am so thankful for all Dad has done for the whole family and I hope that we can do him proud over the 2 day event. Please if you can try and make the trip to Willsbro Holsteins you will have two hospitable days that you will surely enjoy.

If all else fails, we'll be certain to give you a great time!

Mathew

For Anthony
"Our Favourite"

Dear Buyers,

The Wills family are looking forward to showcasing their dairy setup in North Cornwall, the Willsbro herd at Pawton Dairy has established itself as a world renowned dairy enterprise which has a reputation for housing some of the highest genetic merit dairy cattle in the world. Last year the family won the much sought after overall Cream Award for Company of the Year as well as winning the High Performance Dairy Herd category and also the Youngstock Health & Welfare Award at the event. Each of the categories had extremely impressive competition and to win the three different awards demonstrates the close attention to detail of every animal from birth through to peak performance.

The upcoming Willsbro open day and sale gives farmers from the UK and beyond a chance to view the impressive, cow focused infrastructure and facilities before having the chance to buy a selection of highly sought after dairy stock and embryos.

The sudden and tragic loss of Anthony Wills shortly after the Cream Awards last year was a shock to the entire dairy industry not least to the close-knit Wills family. It is a testament to the legacy of Anthony that the herd has continued to develop, grow and invest in the future of the herd since his passing. Despite this being a large dairy farm, Robert, Mathew and Melanie continue to have a huge depth of knowledge about individual cows and their families and they work tirelessly to ensure that both The Wills family have had a clear approach to deliver top herd performance. This has revolved around expediting genetic progress through the use of embryo transfer technologies, optimising cow comfort through the deep sand beds and constant access to the feed fence, herd health management and nutrition to ensure that production is optimised.

Herd health management consists of accurate recording of farm level data, analysis of health, performance and production data, identifying areas to focus on and implementing and monitoring changes on an ongoing basis. The farm works very closely with our veterinary practice to devise, deliver and administer full vaccination protocols. The farm utilises a variety of vaccination programmes to reduce many endemic diseases and the family are happy for me to discuss this in more detail with any prospective buyers. The current herd performance from milk recording data shows that the herd has been averaging 45 litres of milk per cow per day for the last quarter and is increasing year on year.

Biosecurity is taken seriously with all stock now being fully housed at Pawton Dairy and all feedstuffs are kept indoors. I would like to remind anyone planning to visit the herd or attend the sale to please bring clean and disinfected boots, disinfectant stations will be available at the entrance and it will be a requirement that all visitors use these facilities on arrival.

I would like to take this opportunity to wish all potential purchasers the very best of luck for their new stock.

Kind Regards,

George Giles BVM BVS DBR MRCVS

Director, Giles & Parsons Farm Vets

@gpfarmvets

I have had the great pleasure of working with four generations of the Wills family and have been involved on the 'Willsbro' journey since the family started to develop Pawton Dairy and the now famous 'Willsbro' herd. It has always been such a pleasure dealing with the whole Wills family and this sale in memory of Anthony will be something very special. I miss Anthony greatly as a friend and valued client and especially miss the excitement of his regular telephone calls. He was a one-off and I know he would have had many '**favourites**' in this very special sale. I know Anthony would be very proud to see what the family is achieving and would be thrilled they are staging this sale.

This catalogue reflects the dedication and skill of the Wills family as dairy farmers and pedigree breeders. The sale contains some of the world's best pedigree families demonstrating outstanding genomics, production and type.

This is the first ever sale on farm at Pawton and the first 'Willsbro' sale to have occurred in Cornwall since the inaugural sale in 2010 at the Royal Cornwall Showground. The catalogue speaks for itself, and I am 100% confident that buyers will not be disappointed when they view the lots as the animals have incredible growth and are in superb condition.

Over many years I have had the great pleasure of selling 100s of dairy cattle from 'Willsbro' and I constantly receive the same consistent message from buyers about how well the cattle go on to new holdings and perform and breed so well.

The herd visit, breeder talk and sale day will be an event not to miss. I know you will receive the best Cornish welcome and hospitality. I look forward to seeing you all at Pawton on 22nd and 23rd September and urge you all not to miss the opportunity to purchase at this elite sale.

Kind regards

Mark

FOREWORD

It is with a mixture of pride and excitement that we introduce you to this latest catalogue of offerings from the WILLSBRO herd. Not only is it the sheer number of top quality cattle made available for sale or the fact that this will be the first sale conducted from their home at Pawton Dairy but also that the Wills family felt that this event should be held in memory of Anthony, and I would like to thank the family, sincerely, for inviting us to be part of this special occasion.

It was a great shock to all of us when, a year ago, the news broke that Anthony had passed and still now I personally find it difficult to comprehend that this larger than life character is no longer with us. To all of us in the Holstein business, Anthony has played such a large part over the past twenty or so years and reading Mark Bromall's introduction led me to thinking of all my own experiences compiled along the Willsbro journey. Whether it was the thrill of selling their record high priced Emilyann all those years ago or partying all night after sales in various parts of Europe in the early days of buying foundation stock, or the times I've visited Pawton over the years and sat and listened to invaluable advice on pretty much all aspects of dairy farming and business in general. I feel incredibly privileged to have known him and extremely proud to continue working with the entire Wills family in the future.

* * * * *

Any one who has visited the facility at Pawton cannot help but be blown away by the whole operation. Whether its the sheer scale of the herd or the quality of the cattle or just the obvious attention to detail that goes into all aspects of the farm. It would in no means be an exaggeration to rank Willsbro as one of the best managed dairy farms you will ever see. The combination of their production, the conformation of the cattle throughout, together with the genetic level to which they have achieved must surely put them amongst the very top of herds globally. No one can visit this place without being in some way inspired. Current herd average production currently stands at 14,467kg 4.06 fat 3.24 protein with a calving index of 411 days! Over 1701 cows!!

Over many years, and still ongoing, the Wills family have invested in many of the breeds best genetics. The portfolio of pedigrees in the herd would be unmatched anywhere and their continued, large scale embryo transfer program has led to many of the worlds elite cow families to grow and flourish. On September 23rd , Willsbro will offer almost 400 head of cattle featuring all of their top genetics. This sale will once again allow everyone to access stock that will improve any dairy farm or breeding operation. The sale allows the opportunity to purchase stock at ALL LEVELS OF BUDGET and, given the number of cattle offered, will surely allow access to top level animals at value for money prices. It is surely a sale not to be missed by any dairy farmer and indeed, once again, the Willsbro sales should be viewed as an invaluable chance to elevate your own herds. We look forward to welcoming you all to Pawton Dairy.

AHEAD OF THE HERD TOGETHER

**“WE TREAT COWS
MORE EFFECTIVELY,
IN A MORE TIMELY
MANNER AND WE USE
LESS ANTIBIOTICS”
SINCE INSTALLING COWMANAGER**

“CowManager is an extra member of staff in the cloud, looking at cows. Monitoring them, looking at health and fertility. We are now able to treat cows faster, more effectively, in a more timely manner, but also with using less antibiotics. We’ve reduced antibiotics by 60%.”

Sandy Mitchell, owner KSH Farm, Kelso Scotland

Giles & Parsons Farm Vets
a dairy focused veterinary practice in Cornwall.

Founded by the enthusiastic directors Jon Parsons and George Giles in 2018. The whole team bring a wealth of knowledge and expertise along with a passion for the dairy industry.

Our aim is simple; to provide an independent, proactive and cost-effective veterinary service to local dairy farmers whilst maintaining clinical excellence.

"We listened to dairy farmers in the area and learnt that having proactive, experienced, dairy focused vets who understand their business needs is hugely important"

As dairy farming is becoming increasingly technical, so is the role of the farm vet. In order to cater for the changing requirements of dairy farmers we decided to create our veterinary practice solely for dairy farmers.

GLYCOPASS

THE GLUCOSE ENHANCER

A highly palatable energy source,
when fed to dairy cows can:

- Increase dry matter intake
- Reduce negative energy balance
- Improve body condition score
- Support milk yield and milk solids
- Increase conception rates

Available in liquid or meal form. As used in the Willsbro herd.

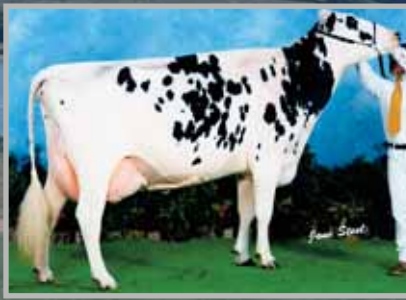

Available from:

TBA Ltd, Unit 3 Pulham Business Park
Pulham, Dorchester
Dorset, DT2 7DX

T: 01300 345711

In Mastitis Control

PREvention is PROfessionalism

Take the next step with **Mastitis Vaccination**

Ask your vet about your mastitis prevention plan

Andrew Biggs BVSc, FRCVS and Vale Veterinary Laboratory Data. Primary pathogen identified in all high SCC and clinical mastitis milk samples from 2019-2021.

STARTVAC® Inactivated vaccine, Bovine mastitis, in injectable emulsion. **COMPOSITION PER DOSE (2 ML):** Inactivated *Escherichia coli* (J5) 50 RED60*; Inactivated *Staphylococcus aureus* (CP8) SP 140strain expressing SAAC** 50 RED80***. Adjuvant. * RED60: Rabbit effective dose in 60% of the animals (serology). **SAAC: Slime Associated Antigenic Complex. ***RED80: Rabbit effective dose in 80% of the animals (serology). **INDICATIONS:** Cows and Heifers: To prevent Mastitis. For herd immunisation of healthy cows and heifers, in dairy cattle herds with recurring mastitis problems, to reduce the incidence of sub-clinical mastitis and the incidence and the severity of the clinical signs of clinical mastitis caused by *Staphylococcus aureus*, coliforms and coagulase-negative staphylococci. The full immunisation scheme induces immunity from approximately day 13 after the first injection until approximately day 78 after the third injection (equivalent to 130 days post-parturition). Further information available from the SPC or on www.hipra.com. For more information about side-effects, precautions, warnings and contra-indications please refer to the SPC, the packaging or product leaflet. **LEGAL CATEGORY:** POM-V- Veterinary medicinal product under veterinary prescription. **MARKETING AUTHORISATION HOLDER:** Laboratorios Hipra, S.A. la Selva, 135, 17170-AMER (Girona) SPAIN. **MARKETING AUTHORISATION NUMBERS:** UK(GB): Vm17533/5010, UK(NI): EU/2/08/092/003-6. **Use Medicines Responsibly.**

UBAC®, emulsion for injection for cattle. **COMPOSITION PER DOSE:** Lipoteichoic acid (LTA) from Biofilm Adhesion Component (BAC) of *Streptococcus uberis*, strain 5616 ≥ 1 RPU. Montanide ISA 907.1 mg. Monophosphoryl Lipid A (MPLA). **INDICATIONS:** For active immunisation of healthy cows and heifers to reduce the incidence of clinical intramammary infections caused by *Streptococcus uberis*, to reduce the somatic cell count in *Streptococcus uberis* positive quarter milk samples and to reduce milk production losses caused by *Streptococcus uberis* intramammary infections. Further information available from the SPC or on www.hipra.com. For more information about side-effects, precautions, warnings and contra-indications please refer to the SPC, the packaging or product leaflet. **LEGAL CATEGORY:** POM-V- Veterinary medicinal product under veterinary prescription. **MARKETING AUTHORISATION HOLDER:** LABORATORIOS HIPRA S.A. Avda. la Selva 135. 17170 Amer (Girona) Spain. **MARKETING AUTHORISATION NUMBERS:** UK(GB): Vm17533/5011, UK(NI): EU/2/18/227/001-004. **Use Medicines Responsibly.**

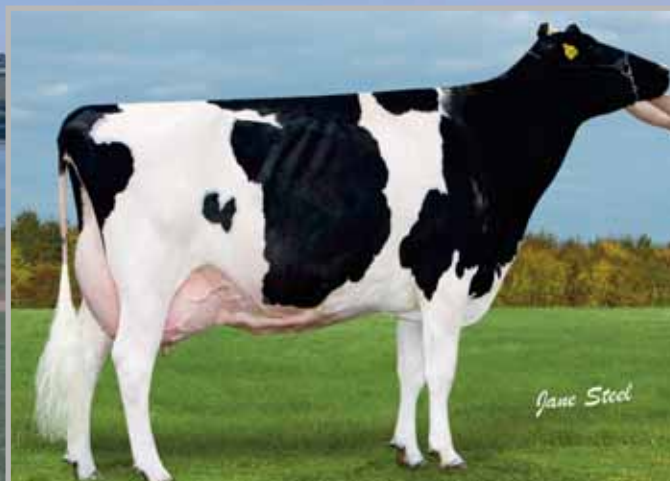

These products are not licensed for concurrent use. A decision to use either of these vaccines before or after any other veterinary medicinal product therefore needs to be made on a case-by-case basis.

Amino Acid Balancing unlocking your herd's true potential

Production

Reproduction

Health

Sustainability

Adisseo with the support of TBA, takes pride in providing MetaSmart® and RumenSmart™ to the Willsbro Herd, helping them achieve optimal performance, health, and returns.

Balancing rations with MetaSmart® has been shown to generate:

- ✓ More Milk Yield, Protein and Fat
- ✓ Reduced metabolic disorders at transition
- ✓ Improved fertility

RumenSmart® is the smart solution to increasing Butterfat

- ✓ Increased milk Fat
- ✓ Promotes beneficial rumen microflora
- ✓ Decreases the impact of Diet-induced milk fat depression

Ready to unlock your herd's potential contact:

Stop cooling your barn!

Royal de Boer and VES-Artex join forces on ventilation! We are convinced that you should stop cooling your barn! No more lost wind, no more heat stress and, above all, no more lost costs. How do we think this should be done? Start cooling your cow! With wind layers that move around the cow and a complete, efficient barn concept, adapted to your barn. Because if we don't cool the cow, why bother?

We would be happy to tell you more about it. Contact one of our specialists for more information.

Cool your cow!

 **VES-Artex** by  **Royal de Boer**
a TURNTIDE company since 1869

CONDITIONS OF SALE

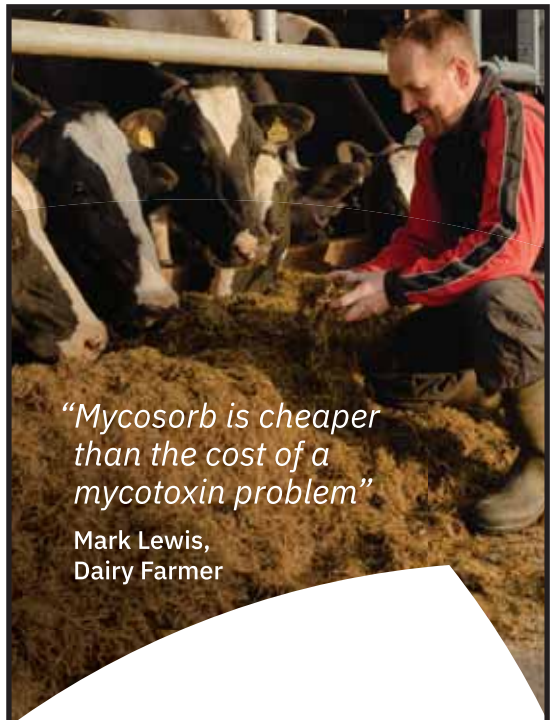

1. The biddings to be regulated by the Auctioneers, in terms of 'guinea' bids and multiples thereof, each guinea to be equivalent to 105 new pence (£1.05); if any dispute should arise, the lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give a reason for such action.
2. The Purchaser to give his name and dwelling place and pay for all lots at the close of sale. No lot or lots shall be removed from the sale premises until paid for, and pass-out slip obtained from the Auctioneer' clerk.
3. Notwithstanding the foregoing and the following Condition 4 each and every lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective Purchaser or Purchasers thereof and shall be removed from the sale at the Purchaser's expense within a week of the sale.
- 4.1. If any lot or animal (s) is not paid for in cash under Condition 2 above but payments is made by cheque or other form of negotiable instrument then the animal(s) shall remain the sole and absolute property of the Vendor as legal and equitable owner until such time as all money due to the Vendor has been paid by the Purchaser, Payment shall unless otherwise agreed be made to the Auctioneers and shall not be deemed to have been paid until any cheque or other negotiable instrument has been cleared by the Auctioneers Bankers and the following further provisions contained in Condition 4 shall apply.
- 4.2. The Purchaser acknowledges that he is in possession of the animal(s) as bailee for the Vendor until such time as the animal(s) has been paid for or pursuant to the provisions of Condition 4.1.
- 4.3. The Purchaser undertakes to house any animal on his premises separately from his own and those of any other person and in such a manner which makes them readily identifiable as the Vendor's.
- 4.4. The Purchaser's right to possession of such animal(s) shall cease if he does anything or fails to do anything which could entitle a receiver to take possession of the animal(s) or which would entitle any person to present a petition for the winding up of the Purchaser.
- 4.5. The Vendor or the Auctioneers may for the purpose of the examination or recovery of animals enter upon any premises where they are housed or where they are reasonably thought to be housed.
- 4.6. If the Purchaser shall sell on the animal(s) the entire proceeds shall be held in trust for the Vendor and shall not be mingled with any other money paid into any overdrawn bank account and shall at all times be identifiable as the Vendor's money.
- 4.7. The Purchaser warrants that he is not at the time of entering into any agreement to purchase the animal(s) insolvent and knows of no circumstances which would entitle any creditor to appoint a receiver or to petition for winding up or to exercise any rights over and against the purchaser's assets.
- 4.8. Without prejudice to any other to any right or remedy of the Vendor or the Auctioneers of the Purchaser shall be in breach of any of the conditions set out in this Condition 4 or any of the other conditions herein contained the Vendor or the Auctioneers shall have power to resell the lots retaining any surplus and charging any deficiency or expense to the defaulter or Purchaser.
5. All statements in the catalogue or made by the Auctioneers at the time of the sale, also the identification of the animals, are the entire responsibility of the Vendor. The Auctioneers take no personal responsibility for the correctness of any such statement or identities.
6. All statements made either in the catalogue or any made by the Auctioneers at the time of the sale relating to Tuberculin or any tests to be taken as statements of fact only. No such statement shall guarantee the Purchasers of any animals against loss arising through subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
7. Neither the Vendor nor the Auctioneers will be responsible for any accident through fire or any other cause whatsoever, nor for any damage done by animals prior to, during or after the sale.

“Mycosorb is cheaper than the cost of a mycotoxin problem”

Mark Lewis,
Dairy Farmer

Transform

your herd's performance

Alltech 37+® detects 54 individual mycotoxins

Mycosorb A+® is proven to address the multi-mycotoxin challenge, including *Penicillium* toxins, the most common toxin detected in forages and TMRs*

Improve milk yield

Reduce somatic cell count

Support animal immunity

Contact us on **01780 764512** to find out more about Mycosorb A+ and our full suite of Mycotoxin Management tools.

*Based on results of Alltech 37+ mycotoxin testing
